EDUCATION

Bachelor of Technology in computer science Engineering

Abdul Kalam Technical University

01/2019 – 2023 | Lucknow, India

CGPA: 8.2

Relevant Coursework: Data Structure and Algorithm, Object Oriented Programming, Web Programming, Data Science, Design and Analysis of Algorithm, Operating System, Relative Database Management System, Computer Networks

RR Intermediate College , Hardoi

Higher Secondary (12th) - 70.2%

Senior Secondary (10th) - 86.4%

PROJECTS

Ride Sharing System - UBER (Micro Services) 🔄

User & Captain Management, Ride Creation, Mapping Integration, Vehicle Management, Frontend Integration, and Price Strategy.

User & Captain Management: 🔄 Implemented user and captain registration, login, profile retrieval, and logout functionalities using JWT-based authentication.

Ride Management: Developed ride creation, fare estimation, and real-time ride status tracking, allowing users to book rides and track their journey.

Mapping Integration: Integrated Google Maps APIs for address autocomplete, fetching coordinates, and calculating distance/time between locations.

Vehicle Management: Captains can register and manage vehicle details, including type (auto, car, motorcycle), color, plate number, and capacity.

Digital Signage Software (In process) 🔄

Developed a digital signage platform with a React.js and Tailwind CSS frontend and Node.js backend, incorporating real-time playlist management, CRUD operations, and campaign scheduling for dynamic content updates.

Web Development Projects

Contributed to the creation and maintenance of multiple websites, including **molog.in** 🔄 and **everidoor.in** 🔄 . Focused on enhancing user experience through intuitive design and optimized performance.

LANGUAGES

Hindi | English
